

ZAID AHMED

Bengaluru, India 560051 | 9902751305 | zaid63250@gmail.com | github.com/ZaidAhmedMSRUAS | [Zaid Ahmed LinkedIn](#)

SUMMARY

Information Science and Engineering undergraduate with a strong foundation in Python, Java, C, and C++, Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, and Computer Networks. Hands-on experience in software development, Python automation, front-end development, real-time systems using QNX RTOS, and data-driven applications through internships, academic projects, and hackathons. Strong problem-solving and analytical skills with experience in Git/GitHub and collaborative software development. Seeking to contribute to IBM as an Associate System Engineer by developing reliable software solutions and solving technical problems.

SKILLS

Programming: Python, Java, C, C++
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks
Software Development: Problem Solving, Debugging, Code Review, Software Development, Automation
Systems & Embedded: QNX RTOS, QNX Momentics IDE
Web Technologies: HTML, CSS, JavaScript
AI / Data Science: Python for Data Processing, Data Analysis, Statistical Concepts, Introductory AI/ML Concepts
Tools & Platforms: Git, GitHub, VS Code
Soft Skills: Analytical Thinking, Teamwork, Communication, Leadership

EXPERIENCE

FRONT END WEB DEVELOPER INTERN | IBM

SkillsBuild, Bengaluru, India

08/2025 – 09/2025

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Debugged and resolved front-end issues to improve application functionality and user experience.
- Used version control practices to manage code changes and collaborate on development tasks.
- Documented development processes, tools, and workflows to support knowledge sharing and maintainability.

PYTHON DEVELOPER INTERN | VaultofCodes,

Bengaluru, India

09/2024 – 10/2024

- Developed Python scripts for data processing and task automation.
- Debugged coding issues and collaborated with team members to improve application functionality.
- Participated in code reviews and followed software development best practices.

EDUCATION

Faculty of Engineering And Technology M.S. Ramaiah University of Applied Sciences, Bengaluru, Karnataka, Expected in 02/2027

Bachelor of Technology: Information Science and Engineering — Appearing, Graduation: 2027

CGPA: 9.0 / 10

QUWATHUL ISLAM PU COLLEGE, Benson Town, Bangalore, 04/2023

H.S.C: Science | GPA: 93.17

CORPORATION HIGH SCHOOL, Shivajinagar, Bangalore, 06/2021

S.S.C. | GPA: 85.6

CERTIFICATIONS & LICENSES

- QNX RTOS Hackathon - State Level Competitor
 - Attending Multiple Seminars and Workshops on AI, ML, Statistics, Robotics, Data Science, Ethical Hacking and Cyber Security
 - Student Organizer and Coordinator for International Conference on IC-SIIT and IIC Regional Meet 2025
 - Taken multiple courses on platforms like Udemy, GreatLearning, Swayam NPTEL, Tutorials Point in multiple domains
 - Pravrutti 2025: National Level Tech Fest Competed in Triathlon
 - Participated in a national-level hackathon by C3iHub IIT Kanpur
-

AWARDS & HONORS

- Awarded Best Student of the Year in 2020
 - Appointed Secretary of the ComputeX Club, RUAS, contributing to the planning and coordination of technical and student-focused activities.
 - Selected for a leadership role as Engagement Director at Rotaract Club of Bangalore Warriors.
 - Recognized for active participation in technical events, hackathons, workshops, and extracurricular activities.
-

PROJECTS

Quiz Timer & Auto-Submission System using QNX RTOS

- Developed a real-time quiz application featuring timed assessments and automatic submission.
- Implemented the application using QNX RTOS and QNX Momentics IDE.

Supermarket Management System

- Developed a Python-based software solution to manage supermarket operations and streamline data and management processes.

Multilevel Association Rule Mining with Concept Hierarchies

- Developed a data-mining solution to discover associations and patterns across multiple levels of a concept hierarchy.
- Applied support and confidence measures for pattern analysis.

-
- **Technologies:** Python, Data Mining, Association Rule Mining, Concept Hierarchies, Data Analysis
- Smart Waste Impact Tracker**
- Designed an application concept for tracking waste generation and its environmental impact to promote sustainable waste-management practices.
-
